OBJECTIVE

iOS developer with a solid foundation in computer science principles and a strong passion for native iOS app development. Proficient in Swift, SwiftUI, and UIKit, with hands-on experience gained through online courses and personal projects. Skilled at problem-solving and collaborative teamwork, as evidenced by my successful University course project and job as a barista, consistently delivering exceptional customer service and maintaining a positive attitude under pressure. Seeking an iOS development opportunity to apply my practical skills, continue learning, and contribute to innovative app solutions.
